Sales of Vale's iron ore, net of maritime freight costs, totaled R\$ 87.2 billion in 2H20, out of which R\$ 63.2 billion correspond to the Northern System. After applying the discounts provided in the Deed of Debentures to calculate the net revenues, among which R\$ 3.1 billion are related to transportation expenses, and the percentage of 1.8%, the value of the premium related to net revenues of iron ore from the Northern System is R\$ 1,048.6 million.

In Vale's Southeastern System, iron ore sales from the mineral deposits covered by the Private Deed for Participating Debentures totaled 1.469 billion metric tons until December 31<sup>th</sup>, 2020, an increase of 12 million metric tons in relation to June 30<sup>th</sup>, 2020. Vale's expectation, based on the operational resumption plan and on the sales plan for iron ore originated from the mining rights covered by the Deed of Debenture, is that the accumulated sales volumes of 1.7 billion metric tons of the Southeastern System will be reached in 2024, threshold from which the condition for the payment of the premium, under the terms of the Deed, would be fulfilled. However, such forecast may not be confirmed, implying in the anticipation or postponement of the aforementioned date in order to obtain the cumulative sales levels.

## Copper concentrate

In 2H20, sales of copper concentrate from Sossego totaled 174 thousand metric tons, 11.7% higher than the 156 thousand metric tons in the previous semester.

Sales of this product generated net revenues of R\$ 1,969.7 million, a 72.9% increase when compared to the R\$ 1,139.0 million in the previous semester.

The premium related to the sales of copper concentrate of R\$ 24,621,243.23, is calculated from the application of the 1.25% percentage on the net sales revenue of R\$ 1,969.7 million.

Hence, the percentage basis for calculating premium is 2.5%, as described in the Deed of Issue of Debentures, multiplied by the Vale's share in the project at the time, 50%, and therefore, equal to 1.25%.

## Sales and leasing of mining rights
