

Vale's Base Metals Video Series

Video 3: Health & Safety

Video	Audio/Narration
VOG over opening title	Vale's Base Metals Business Series — Focusing on health and safety
Emphasize drama and intensity of the processes below, see deep underground mine,	Imagine digging more than two kilometers down into the earth.
See open-pit vehicle	Imagine driving a truck that's bigger than a two-storey house.
See crushers and transport	Imagine the power needed to crush rock into marble-sized pellets of concentrated ore.
See flash furnaces and flotation processes	Imagine the chemicals and huge furnaces needed to turn that ore into useful metal.
See safety trainer advising worker	Each stage of the mining and refining process is complex and potentially hazardous.
Miners working in well-controlled environment. See safety training, various safety practices See warm, positive smile... worker learning new safety procedure etc.	At Vale we have no higher priority than the health and safety of our employees. We go to work every day dedicated to creating a safer, healthier workplace. It's always our first job.
See Thompson: SafeProduction program, training events	The responsible management of risk is everyone's job. To encourage a collective approach, we are building a risk management culture that has, as its primary focus, zero harm — to our people, to our workplaces, to the communities in which we operate and to the natural environment.
See worker checking a safety feature, talking to a supervisor etc be sure to include non-Canadian op's images	Everyone at Vale learns that part of the day-to-day job is knowing our emergency action plans, properly identifying hazards, and taking preventative action to reduce risks.
See Thompson: "orange hard hats" program	We are working to adopt increasingly effective incident prevention methods, and to encourage the adoption of our safety culture throughout our value chain.

Video 3: Health & Safety (cont'd)

Video	Audio/Narration
See safety-focused operations in PTI or Goro	Our commitment is reflected in our efforts to share best practices in health and safety throughout the company, all over the globe.
See healthy environmental/community action or "green activity"	We also manage risks to protect the environment and the communities we're a part of...
See Vale working with government or community, Manitoba, Safe Workers of Tomorrow Safety Centre, high school outreach	Vale partners with governments and actively engages local communities with a view to raising awareness about health and safety issues.
See research or academic conference activity	We support advanced academic research in environmental risk, occupational illness and human health.
See Vale sponsored hospitals, clinics, etc. Labrador Health Centre in Happy Valley-Goose Bay PT Inco community hospital	Depending on what's needed in the places we work, we offer medical treatment, disease prevention, and counseling for our employees, their families and our communities. Around the globe, we care for our communities and we care about their long-term futures.
See Vale operations in action	Vale's base metals business will always be vigilant, mitigating risk and improving health and safety, for everyone in all aspects of our business.
Title rundown	To learn more about how we are transforming mining please watch the other videos in this series.
