

38. ES 38: Service life (worker at industrial site); Service life of abrasive tools containing nickel in industrial settings

38.1. Title section

Article category: Other metal articles (AC 7g)

Environment	
1: Service life of abrasive tools containing nickel in industrial settings	ERC 12c
Worker	
2: Handling of abrasive tools	PROC 24

38.2. Conditions of use affecting exposure

38.2.1. Control of environmental exposure: Service life of abrasive tools containing nickel in industrial settings (ERC 12c)

Technical and organisational conditions and measures
The substance should not be released to air
The substance should not be released to water
Conditions and measures related to external treatment of waste (including article waste)
Dispose of waste product or used containers according to local regulations.

38.2.2. Control of worker exposure: Handling of abrasive tools (PROC 24)

Product (article) characteristics
Covers concentrations up to 100 %
Physical form of product: Bound in article.
Amount used (or contained in articles), frequency and duration of use/exposure
Covers use up to 8 h/day

38.3. Exposure estimation and reference to its source

38.3.1. Environmental release and exposure: Service life of abrasive tools containing nickel in industrial settings (ERC 12c)

Release route	Release rate	Release estimation method
Water	0 kg/day	Estimated release factor
Air	0 kg/day	Estimated release factor
Soil	0 kg/day	Estimated release factor

38.3.2. Worker exposure: Handling of abrasive tools (PROC 24)

Route of exposure and type of effects	Exposure estimate	RCR
Inhalation, systemic, long term	0.1 ng/m ³ (Qualitative assessment)	< 0.01
Inhalation, local, long term	0.1 ng/m ³ (Qualitative assessment)	< 0.01

Route of exposure and type of effects	Exposure estimate	RCR
Inhalation, local, acute	0.1 ng/m ³ (Qualitative assessment)	< 0.01
Dermal, local, long term	0.1 ng/cm ² (Qualitative assessment)	< 0.01
Combined, systemic, long term		< 0.01

38.4. Guidance to DU to evaluate whether he works inside the boundaries set by the ES

Guidance: Please refer to Section 0.3 of this "ES for Communication".
